EDUCATION

Columbia University, School of Engineering & Applied Science

New York, NY

B.S. in Operations Research, Minors in Computer Science & Economics

Anticipated Grad: May 2028

- **Cumulative GPA:** 3.7/4.0
- **Coursework:** Machine Learning (in progress), Data Analysis (in progress), Probability, Data Engineering
- **Honors & Awards:** Dean's List (4x), Buckeye Cable Scholar of the Year, Elks MVP Scholarship Semifinalist

WORK EXPERIENCE

Product Manager

Sep 2026 – Present

Lumelle

Remote

- Leading **entrepreneurial** development of Lumelle's **Minimum Viable Product (MVP)**, a jewelry rental and lease-to-own app, prioritizing which **features** to build by evaluating **user** and **business impact**

Digital Strategy Intern

Jun 2026 – Aug 2026

Thresh Consulting

New York, NY

- Spearheaded a client engagement to design and launch an **AI/ML**-powered agentic operating system, driving over **75% adoption**, by translating **user requirements** into a prioritized roadmap
- Developed *Threshold*, a fully functioning **AI-powered** task management tool using **Claude**, achieving alignment across **30+ stakeholders** through **technical presentations** promoting its value to leadership
- Designed **feature specifications** for a telecom client's mobile **buyflow** redesign, resulting in recommendations across **5 UX categories**, via writing **user stories** benchmarked against **6 competitor** sites

Undergraduate Researcher

Jan 2026 – May 2026

Columbia University Department of Economics

New York, NY

- Built a panel dataset of **80,633** corporate emissions observations across **5,040** firms, reflected in matching **LSEG/Refinitiv ESG** disclosures with **EPA** facility data, by writing **Python** data pipelines
- Translated **regulatory and energy-market trends** via **analogies** for a non-technical faculty lead

Product Strategist

Dec 2025 – May 2026

Series

New York, NY

- Synthesized **customer feedback** across **31 user interviews** for a Gen Z-focused iMessage platform, growing the user base to **25,000+**, through recommending **UI/UX** adjustments and strategy to leadership
- Executed **sprint plans** under delivery constraints, achieving a **20% reduction** in **churn**, by optimizing features through **A/B testing** and experimentation

Industry Research Intern

Dec 2025 – Mar 2026

Alka Oaks Partners

Philadelphia, PA

- Delivered **industry landscape** findings for **due diligence** on an **EdTech acquisition** target, resulting in a **data-backed business case**, through leading **competitive and market research**

LEADERSHIP EXPERIENCE

Resident Adviser

Aug 2025 – Present

Columbia University Residential Life

New York, NY

- Directing **residential operations** and a **\$300 budget** for **45 residents**, increasing engagement by **75%** since taking on the role, by building **personal relationships** and **targeted advertising**

Co-President

Sep 2025 – Present

Ascend Consulting Group

New York, NY

- Leading **entrepreneurial, cross-functional** growth for Yope, reflected in **15 million** users and a **\$12.3M valuation**, by designing **feature specifications** and driving **marketing** and **branding** strategy
- Overseeing **chapter recruitment**, growing to **200+ applicants** per cycle and a **40-member** club, via **outreach**

PROJECTS

Transplant | *Swift, SwiftUI, SwiftData, Figma*

Aug 2026 – Present

- Engineering a **moving-logistics** prototype with **Lovable**, as measured by adoption from **250+ users**, by writing a **Product Requirements Document**, **user persona**, and **RICE**-prioritized roadmap
- Programming and **validating** a native **SwiftUI/SwiftData** iOS app, achieving a budget system that scales task spend proportionally, by explicitly **prompting Codex** in **Xcode**

SKILLS

Product: Product Strategy, Roadmapping, Design Thinking, RICE Prioritization, Agile/Scrum, PRDs & User Stories, Competitive & Market Research, A/B Testing, Google Analytics, Stakeholder Management, Figma, Jira, Notion

AI/ML: LLM Integration (Claude, Gemini, Codex), Prompt Engineering, Lovable

Technical: Python, Java, Swift, SQL, HTML/CSS, Git, GitHub, Xcode, VS Code, Jupyter Notebook
